

Thank you to everyone who participated in the recent ISOA community survey. We received a total of 197 respondents, and averaged approximately 150 answers to each question.

The main themes from the comments were:

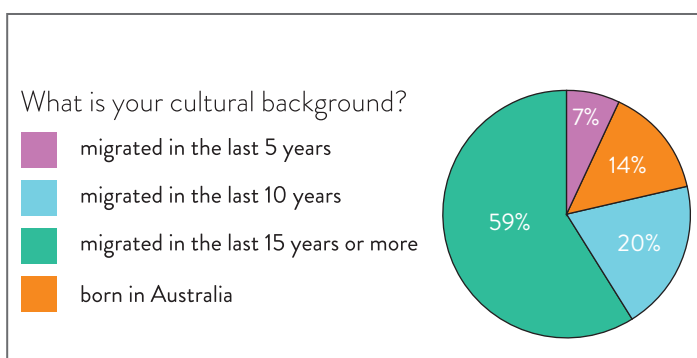

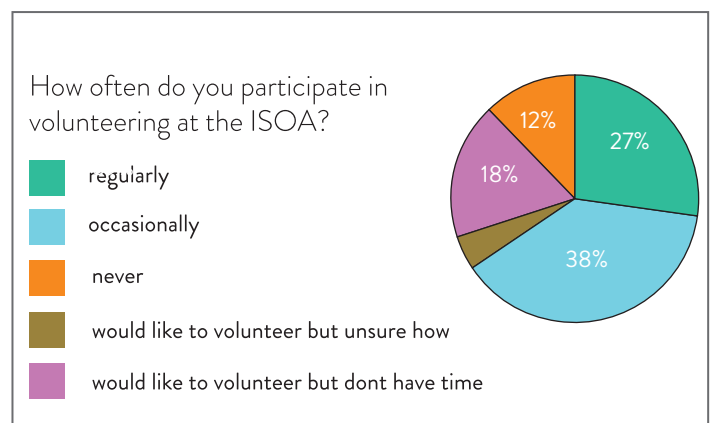

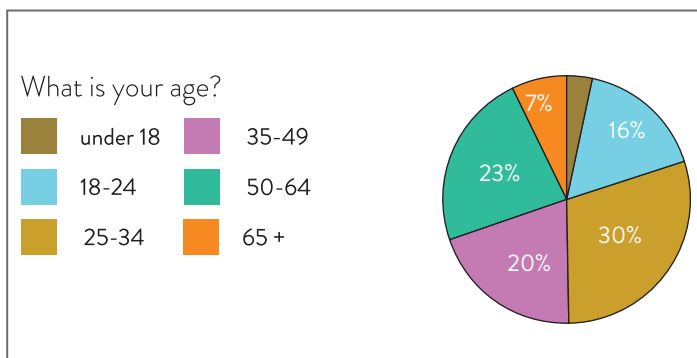

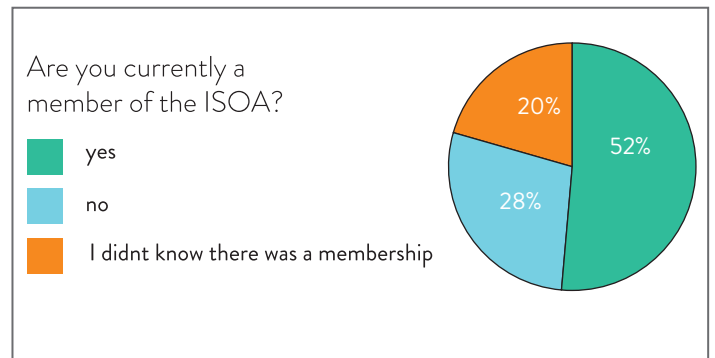

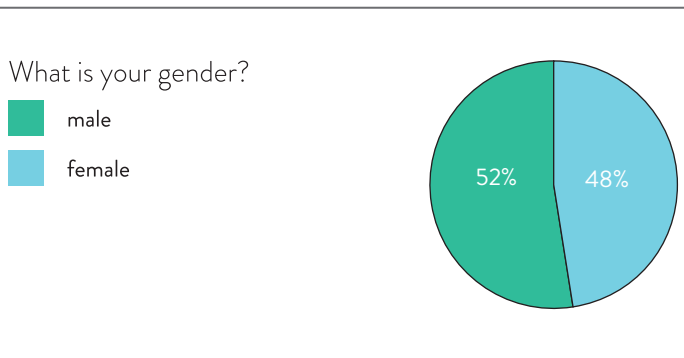

- Communication
- Being inclusive and welcoming
- Contributing to the larger community

Some of the practical suggestions include events for women and classes for higher learning.

We will continue to listen to your feedback and as a first step, are currently looking at streamlining our communication. A follow up workshop to the survey will InshaAllah be held in the coming weeks. We will need assistance with set up, facilitating the workshop, and childminding. If you can assist please contact Shameera Osman via email shameera.o@gmail.com. We will need both males and females.

Please stay tuned for further updates regarding the workshop.

Below are the results of the multiple choice questions.
